## Ex. 6 - Personal Privacy

Is it possible to do it any earlier. We usually schedule afternoon appointments at 1:30. The reason for this is that it will take about 3-4 hours to do the sampling. The crew then has to package, label, ice and ship the samples via fedex by 6pm (in New York). Any later and they will be cutting it really close, essentially still shipping the samples on Friday. It will also depend on whether or not you choose to allow Cabot and PADEP to take samples at the same time as EPA. I don't recall asking you if you were willing to do this but that also adds time the sample process. Please let me know if you are willing to allow them to sample and if you can be there any earlier. I apologize for the all the trouble, scheduling has been a logistical nightmare for everyone. Another option is if you have given a key to a neighbor, maybe they can let us in for sampling.
